

The Flower School

flower-school.co.uk

The Flower School by Flower Station is located at a wonderful hidden gem of a garden centre in Hampstead Garden Suburb. The central focus is a beautiful old glass house structure which has just been renovated into our Flower School and an enjoyment hub for learning all things to do with plants and flower arranging.

Team Building

Learning together

Our floral design classes are ideal team building exercises. Set in our wonderful **Flower School** in North London or brought to your own chosen space, the full team will be lead through the basics of floral design before having a go themselves. Leaving with a new knowledge and appreciation of flowers, these creative workshops are wonderful for **improving staff communication**, moral and mental wellbeing, and maybe most importantly having fun in an informal setting.

Classes via Zoom

We will send all the flowers and materials directly to all your employees.

We are aware of how things work now; the new ways of staff working remotely. Our Zoom classes are the perfect solution to share a great time together even if being apart. We will send the flowers directly to your employees ready for a masterclass with one of our well trained head florists. Working with flowers is a perfect way of bringing the team together and support their wellbeing.
